Games/Puzzles

Use the vocabulary words and definitions to create a crossword puzzle and/or word search.

Bingo: Make copies of the bingo cards for your students. You will need to supply bingo chips. Read the vocabulary definitions as clues. Students should mark boxes if the vocabulary word that matches the definition is found on their card. The first student to get BINGO wins. Note: For Harbor Seals and California Sea Lions, both drawings and words are included on the cards.
